NEXUS ACADEMY - LECTURE NOTES

Atomic Structure & Quantum Numbers Class Notes

Course: HSC Chemistry (CHM-105) | Faculty: Dr. Arif Hasan (Lead Instructor)

Location: 965/1 Middle Monipur, Mirpur-2, Dhaka-1216

Key Topics Covered:

1. Bohr Atomic Model and Postulates
2. Principal, Azimuthal, Magnetic, and Spin Quantum Numbers
3. Aufbau Principle, Pauli Exclusion, and Hund Rule of Maximum Multiplicity
4. Electronic Configuration of Transition Elements and Anomalies

Official Study Material for Enrolled Students Only. Nexus ELMS Compliant.
